

The following is a list of all DTN Market Stats/Internals that are calculated and provided to customers on DTN's various market data platforms. Effective March 28<sup>th</sup>, 2010 the equity stats will be calculated and **sent once per second**. 52 week hi/lo and Option stats will be updated every 30 seconds. We are also adding a large number of new calculated symbols, which are **highlighted in Yellow**.

In order to access the data on DTN.IQ/IQFeed, you must add a ".Z" to the end of the symbol. For example, "AI1T.Z".
